

# Continuing Education That Enhances Daily Pharmacy Practice

Join 115,000+ Pharmacy Professionals

Turn required CE into real-world results. **Technician By Design®** helps Pharmacy Technicians learn with purpose.

## CEimpact: Built for Pharmacy Technician's Continuing Education Journey

CEimpact isn't just about checking boxes—we deliver career-focused, pharmacy-specific education created by pharmacy professionals, for pharmacy professionals.

## With 30+ years of hands-on experience, we help Pharmacy Technicians:

- Build confidence to serve their patients.
- Stay ahead with timely, relevant updates to efficiently work alongside pharmacists.
- Gain a competitive edge to guide their practice.

## CEimpact training is tailored to real-world pharmacy practice.

- No jargon or wasted time.
- Just relevant, credible training.

## Pharmacy Technician CE Goals, Covered:

### Maintain Licensure with Confidence:

Fulfill all required continuing education (CE) hours for pharmacy technician certification renewal, on time and without unnecessary stress.

### Stay Current with Clinical Practice:

Stay informed on new medications, specialty therapies, and updated guidelines to maintain competence in community and institutional practice.

### Enhance Team-Based Skills:

Strengthen communication, teamwork, and medication-handling skills to provide safe, accurate, and trusted support for patient care services.

### Maximize CE Investment:

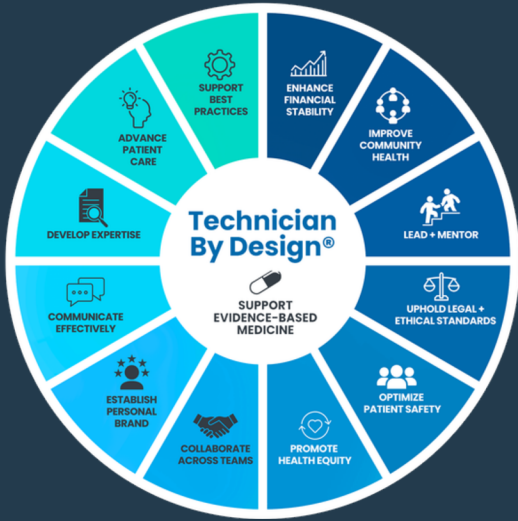

Select CE courses that deliver high professional value, improve day-to-day job performance, and fit within personal or employer budget limits.
